

# VINTNERS ADVANTAGE

Winery Management Software

## Additional Modules

### **Barrel Barcode**

- Includes:
  - Topping
  - Racking into, out of, and barrel to barrel
  - Barrel Volume Adjustment
  - Sulfur Additions
  - Empty Barrel Operations
  - Shipping
- Barcode Reader automatically populates Winery Operations Work Orders with barrel details and reads individual barcodes.
- Scans multiple operations
- Increases productivity in tracking individual barrels
- Motorola MC9090G Barcode Reader allows barrel work orders to be updated as the work is performed.

Work orders are uploaded from the scanner into Vintners Advantage and a work order review can be done to correct errors in scanning. After upload & error correction the work orders can be completed in Vintners Advantage.

### **Brandy & Spirits**

- Wine Spirit Additions
- Brandy Barrel Warehousing
- Fortifications
- Spirit Sampling
- Spirit Runnings
- Spirit Transfers
- Spirit Physical Inventory Adjustments
- Spirit Bottling, Shipping & Receiving
- DSP Reporting

Winery Management Software

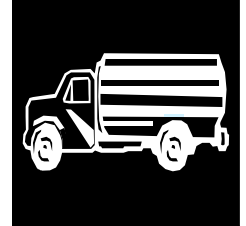

## Bulk Wine Sales Contracts and Bulk Wine Purchase Contracts

### **Bulk Wine Sales Contracts**

- Customer Bulk Wine Contracts may be setup for forecasted or actual bulk wine sales.
- Contracts may be specified by Vintage Year, Blend, and Varietal Percentages
- Analytical criteria can be identified.
- Samples sent to customers may be tracked and Customer Product Approval may be identified.
- Wine Allocation tracking is available to identify wines reserved for specific customer contracts or wine blending programs.
- Sales Contracts may be fulfilled from multiple wineries.
- As work orders are completed that fulfill a sales contract, the contract is referenced and updated with the shipment.
- Contract position reporting is available to indicate contract gallons, shipped gallons, and remaining gallons totals.
- Comparison reporting is available for Sales Contracts vs Wine Inventories to identify over/under positions.
- Comparison reporting is available for Grower Contracts vs Sales Contracts for Harvest Capacity Planning.

### **Bulk Wine Purchase Contracts**

- Contracts are setup by Vendor, Vintage Year & Varietal. The blend, region & appellation may also be defined.
- Contracts are multi-currency for overseas wine purchases
- Contracts are multi-winery. Receiving may occur at multiple bonded wineries and update the same purchase contract.
- The work order system updates the bulk wine purchase contract as receiving work orders are entered. The contract is updated with the work order, winery location and receiving date.
- Inquiries provide detail about receiving activity.
- User defined tables are available for:
  - Brokers
  - Terms
  - Contract Class
  - Currency Types
